

PAYNORTHWEST CLOUD HCM

GOOGLE G SUITE INTEGRATION

Expand your possibilities with integrated cloud software

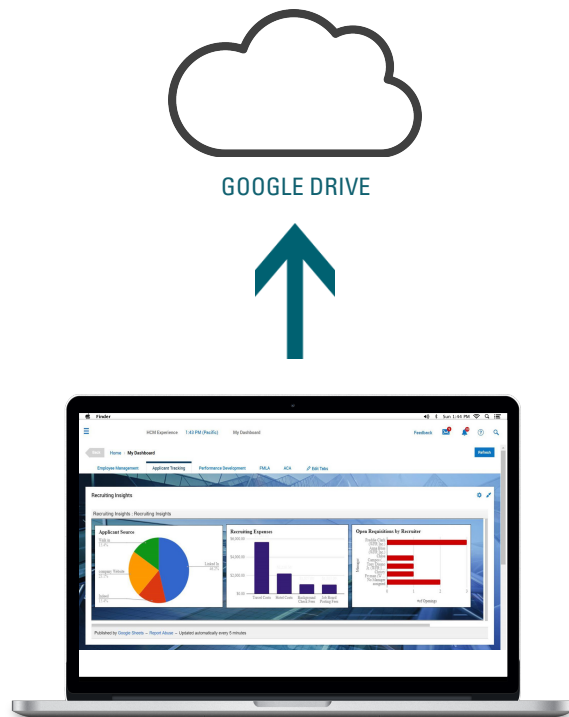

G Suite by Google Cloud +
PayNorthwest =
Greater productivity for you and your
workforce

G Suite by Google Cloud, including Sheets, Drive, Calendar and Forms, is a powerful cloud productivity suite used by millions of businesses to collaborate and get more done.

This simple, cost-effective tool is now even more useful for organizations utilizing PayNorthwest's cloud Human Capital Management (HCM) solution for payroll, HR, time and labor, and benefits management.

Seamless integration between Google G Suite and PayNorthwest HCM takes productivity to the next level and extends the reach and benefits of cloud HCM software to everyone in your organization.

EXPORT REPORTS TO GOOGLE DRIVE

Liberate, share and control your data by using the power of **Google Drive** - PayNorthwest integration

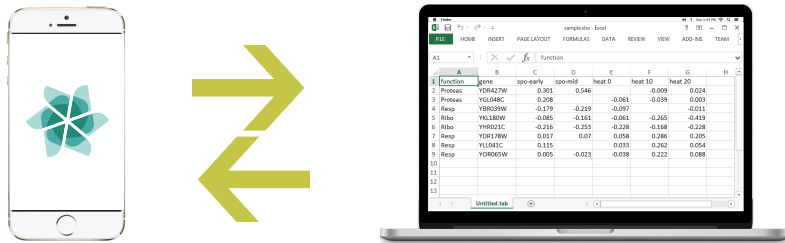

With G Suite, HR reports, timesheet data, payroll information, and other human capital management documents from PayNorthwest can be safely and securely saved to your **Google Drive**. To share information, you will no longer have to store documents in an alternative FTP site, print documents, or email documents with fear of large file sizes or security concerns.

PayNorthwest's integration with Google Drive allows easy sharing of key data with the stakeholders who need it and gives you the peace of mind knowing your important data is safe and secure.

You are able to selectively and securely share reports with important third party stakeholders such as your CPA, retirement plan third party administrators, benefit brokers and others.

ANALYZE PAYROLL AND HR DATA WITH GOOGLE SHEETS

IMPORT / EXPORT DATA TO AND FROM GOOGLE SHEETS

Import and export data between Google Sheets and PayNorthwest's HCM system

Wouldn't it be great if you could save time sharing data and collaborate on projects faster?

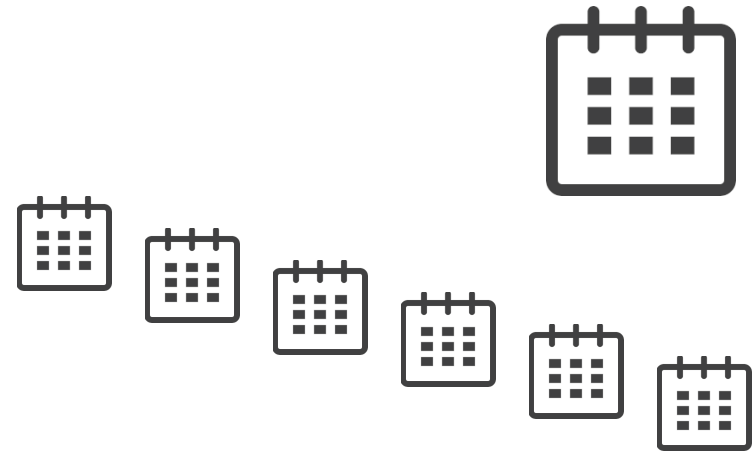

With PayNorthwest's cloud HCM solution and **Google Sheets**, employees are able to collaborate faster, avoid legacy formats, and easily view data from anywhere at any time because spreadsheets are seamlessly and securely shared between the two solutions.

POPULATE EMPLOYEES' GOOGLE CALENDARS WITH THEIR WORK SCHEDULE

With **Google Calendar**, employee work schedules created in PayNorthwest's cloud HCM system are instantly synced to employees' Google calendars. Team members aren't forced to wait until the schedule is physically posted to see assigned shifts, and last-minute changes are rapidly communicated.

Employees will no longer be late to work because they were unaware of shift changes, and employees will be happier because any changes to their schedules in PayNorthwest are automatically updated to their calendars – there is no need for manual input.

MAXIMIZE YOUR IMPACT WITH PAYNORTHWEST SCHEDULES AND GOOGLE CALENDAR

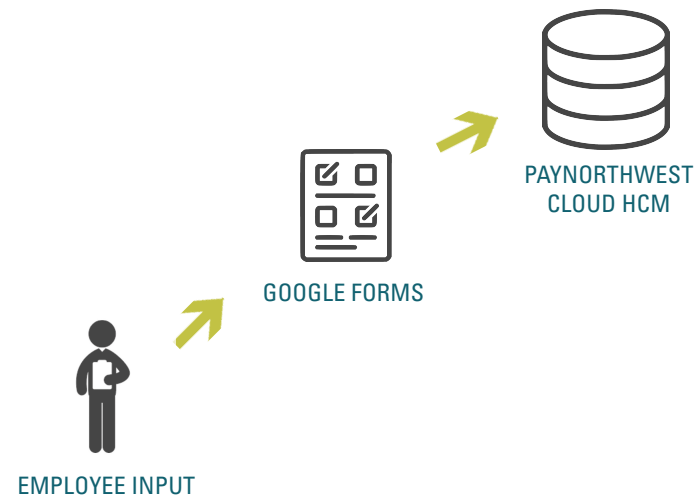

Put work schedules where they belong – on employees' calendars

CAPTURE EMPLOYEE DATA IN GOOGLE FORMS TO UPDATE PROFILES

With integration to **Google Forms** you can easily capture data updates from employees and customers and upload that data directly into PayNorthwest's cloud HCM system. Employees can access these forms directly from an email or text link and quickly complete needed updates on their mobile device or desktop.

The possibilities are endless to make it easier for the people who have the relevant information to update their data in the system using devices and formats that are familiar to them.

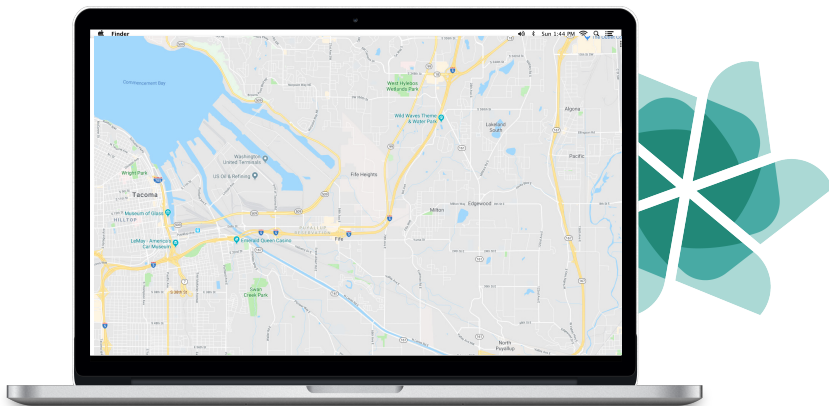

SIMPLIFY DATA CAPTURE FROM EMPLOYEES

Leverage **Google Forms** integration with PayNorthwest to make it easier for employees and others to update important data

VISUALIZE LOCATION DATA WITH GOOGLE MAPS

PLOT APPLICANTS AND PUNCHES ON GOOGLE MAPS

All PayNorthwest customers get the benefit of seeing location data on **Google Maps**

With **Google Maps** you will improve the applicant experience by letting applicants calculate potential commute times from their home to the job location. You will also and enhance your hiring internal hiring process with Google map pins to identify geographic talent pools to hire more efficiently and effectively.

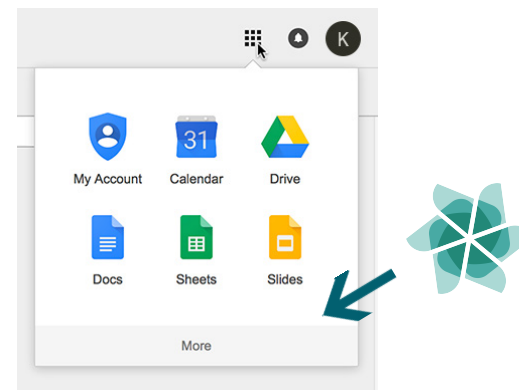

Also, with employee mobile devices enabled for punching in and out, you will be able to plot employee punches on a map to verify worker clock in and clock out locations.

FAST AND SIMPLE SIGN-ON FOR YOUR EMPLOYEES

With single sign-on, you can quickly access your PayNorthwest HCM suite with a simple, one-click login from your Google Apps Marketplace menu – or on the PayNorthwest login screen.

When you are already using G Suite, you will also have instant access to all your employee information within the PayNorthwest system.

SIGN IN WITH GOOGLE

Relieve your employees from having to remember another username and password

IN CONCLUSION

With this innovative and seamless integration between PayNorthwest and Google G Suite you have a variety of enhanced functionality and capabilities to improve onboarding, talent management, payroll and workforce management processes that will increase employee engagement, drive employee productivity and help you better hire and manage talent within your organization.

And the functionality doesn't stop here. Look for additional integrations between these two innovative products as we continue to develop functionality that enhances the user experience and streamlines workforce processes across your organization.
